Summary

Informatics student at the University of Washington focused on UX design. Builds Figma prototypes grounded in frontline research, like a QR code ordering app that replaces handwritten tickets at a high volume restaurant.

Skills

Core Hard Skills: Prototyping, interaction design, user research, user centered design, visual design, user flows, information architecture, systems thinking.
Technologies: Figma, GitHub Pages, Canva, Mailchimp, Excel, Google Slides, PowerPoint, Java, R.
Languages: English, Vietnamese, Spanish (limited working).

Education

- **University of Washington, Information School** — Seattle, WA
  Bachelor of Science in Informatics Expected Graduation June 2028
  - **Relevant coursework:** INFO 201 Technical Foundations of Informatics, CSE 121 Intro to Programming.

Projects

- **Din Tai Fung Digital Ordering Redesign** — Figma
  Personal UX concept, unofficial — *Jun 2026 to Jul 2026*
  - **Prototype:** Designed a 5-screen QR code ordering prototype in Figma, replacing the handwritten ticket and manual POS entry behind misread items and quantities, by mapping friction points observed across 80+ high-volume food running shifts.
  - **Information architecture:** Organized the menu into category tabs with dietary tags and a 5-language picker, letting guests order in their own language and spot gluten-free and vegan dishes at a glance.
  - **Interaction design:** Built a review step where servers confirm orders at the table, keeping staff in the loop while removing manual re-entry.
- **By Witness, Western Detective Game Concept** — UW Information School
  Game designer, team of 3 — *Sep 2026 to Present*
  - **Game design:** Co-designing a game where a new sheriff interviews witnesses and builds wanted posters from facial feature presets, exploring how corruption and pressure for popularity lead to wrongful punishment.
  - **Systems design:** Co-wrote an engineer-ready spec for the Town Trust system, linking trust tiers to witness lie rates from 10% to 65% and tracking a hidden vigilante count that decides the game's two endings.
- **Personal Portfolio Website** — GitHub Pages
  - **Web publishing:** Built and deployed bryantle.net with a custom domain, presenting UX case studies and original project illustrations for recruiters.

Experience

- **Din Tai Fung** — Seattle, WA
  Food Runner — *Dec 2025 to Present*
  Busser and Bar Support, Tukwila — *Nov 2024 to Sep 2026*
  - **Service coordination:** Coordinate kitchen to floor handoffs by tracking cook times and relaying updates to kitchen leads, keeping orders accurate across 70 tables per shift.
  - **Frontline research:** Identify recurring friction in the paper ordering process during peak service, turning floor observations into research for a QR code ordering redesign.
  - **Peak coverage:** Coordinated busser coverage during peak periods, keeping tables reset and the bar stocked through high-volume service.
- **Christian Business Leaders (CBL), University of Washington** — Seattle, WA
  Director of Finance[verify start] to June 2026
  - **Member communications:** Produced a weekly Mailchimp newsletter for 60+ members, redesigning layouts and subject lines around the academic calendar and timing Sunday sends with the club's graphic designer.
  - **Budget tracking:** Managed the club budget in Excel, tracking expenses and reimbursements across 20+ events and ensuring accurate spending reports for the executive board.

Additional Experience

- **Cloud Cafe**, *Barista and Server* — *Nov 2023 to Apr 2024*
- **Observ**, *Shift Leader* — *Apr 2022 to Nov 2023*

Community and Affiliations

- **Vietnamese Student Association at UW**, *Phở King 2026 Contestant* — *Dec 2025 to Apr 2026*
- **Financial Leadership Skills Academy**, *Program Member* — *Oct 2023 to Sep 2024*
